RESPONSE TO AMENDMENT

1. Claims 39 and 40 are pending in the application, claims 1-38 and 41-42 have been cancelled.
2. Amendments to the claims, filed on September 22, 2005, have been entered in the above-identified application.

REJECTIONS

3. **The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.**

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 39 and 40 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In the instant case amended claim 39 contains the limitation, "a particulate layer ... is at least two particulate particles thick." The specification does not disclose the thickness of the

Art Unit: 1772

particulate layer, therefore this limitation is considered new matter. The only discussion in the specification of thickness is on page 11, lines 5-6, where it discusses the total thickness of the wear-resistant coating. The specification is also silent about the size of the particles or the matrix thickness above the fibers. Furthermore, the drawings do not support this limitation since figure 9 shows that the particle layer is discontinuous and sometimes not even one particle thick.

The new matter must be deleted.

ANSWERS TO APPLICANT'S ARGUMENTS

6. Applicant's arguments in the response filed September 22, 2005 regarding the previous rejections of record have been considered but are moot due to the new grounds of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
